5 Big Recruitment Headaches
And how to overcome them

You don't have the luxury of unlimited time or resources, so you can't afford to play a trial-and-error guessing game. We understand your biggest recruitment pain points — so we built a pre-hire platform to fix them.

#1 Recruiting is a complex and time-intensive process.

Talentstream Recruit is the only platform you need to use from acquire to hire: just ONE platform to handle all of your recruitment needs — from mobile, to sourcing, to people analytics and much more — allowing you to make more relevant hires faster.

#5 You don't have real-time data and insights to make recruitment strategy decisions.

With Talentstream Recruit, you can access labour market data and analytics so you're not playing a guessing game about where to find and how to attract the talent you need.

#2 You're expected to do more with less while increasing recruiter/hiring efficiency.

We work with you to get a configurable workflow that simplifies your daily routine. Talentstream Recruit has built-in features — job distribution, search, CV sourcing, candidate management and referral tools — designed with recruitment process efficiency in mind.

#4 Staying engaged with potential candidates while building your candidate pipeline - next to impossible.

Talentstream Recruit offers a built-in talent network where all of these potential candidates can live. That way you can engage the right candidates every time a relevant opportunity pops up.

#3 With multiple databases candidate information can easily get overlooked.

Talentstream Recruit makes it convenient for you to access every candidate in your system — all in one place, so you don't have to go hunting for it or run the risk of candidate information getting overlooked.
